raise awareness and acquire skills
to face the challenge of
**promoting fair, ethical and local
consumption among young
people**

participatory methodologies to
introduce **various tools and
initiatives,**
highlighting **concrete examples
of successful practices**

Training Description

OBJECTIVE

The aim is to encourage young people to get involved in an environmental cause by learning about fair, ethical and local consumption, providing youth workers with expertise and creating a community of committed young people.

Consumo Justo provides the necessary tools for understanding and commitment, encouraging individual or collective initiatives for sensible consumption that is accessible to everyone.

CONSUMO JUSTO

Co-funded by
